

Appl. No. 10/626,294  
Amdt. Dated April 12, 2005  
Reply to Office Action of March 15, 2005

### REMARKS

In response to the Election/Restriction dated March 15, 2005, Applicant hereby elects to prosecute the species embodied in Group I.

The invention is device for generating electrical power from the mechanical reciprocation of tire sidewalls at the tire-to-road contact patch. The generated electrical power may be used for in-tire electronics.

In order to comply with the Election/Restriction, Applicant hereby elects claims 1-64, and 66 without traverse. Applicant hereby withdraws claims 65, and 67-80 without prejudice.

In view of the examiner's restriction requirement, applicant retains the right to present claims 65 and 67-80 in a divisional application.

Applicant respectfully requests the Examiner to examine the claims Applicant has elected without traverse and to allow such claims and pass the case to issue.

Respectfully submitted
